

SMARTER SECURITY IS ONLY THE BEGINNING

Creating Change with BrainStorm

Security doesn't start with technology: it starts (and potentially ends) with the users you trust to keep your organization's data safe. Users who understand smart security practices are less likely to fall victim to common security breaches—and more likely to work smarter in every way.

At BrainStorm we believe in empowering all users and organizations to work smarter and achieve more. For the last 20 years, we've been giving users tools and solutions that do more than improve security—they transform the way organizations work.

Security

98% of BrainStorm's users feel better equipped against cyber threats

Mobility

81% of BrainStorm's users are more likely to work on a mobile device

Productivity

85% of BrainStorm's users say they feel empowered to be more productive

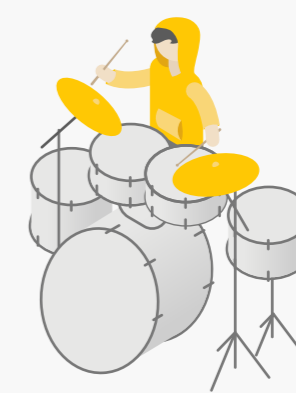

Out With The Old

Traditional training is typically broad, irrelevant, and ineffective. Users don't have time to devote to training that isn't applicable to their job or beyond their needed skillset.

The average user only has 4.8 minutes a day to devote to skill development

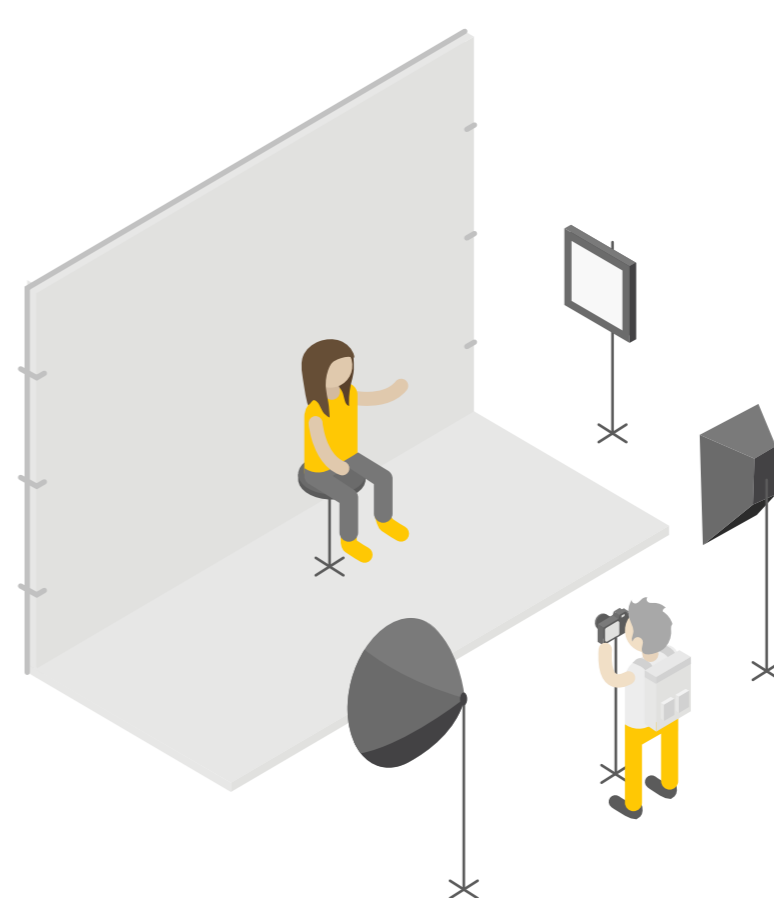

80% of users prefer game-oriented learning

88% of users can't apply skills they learn in a traditional training session

In With The Extraordinary

Learning with BrainStorm is different. BrainStorm QuickHelp™ is an incredible learning platform that surfaces only the content that's applicable to the person viewing it. The result? Users do more than tolerate their technology—they learn to work more powerfully with it.

Personalized

Using a personalized approach to learning, each user's experience is uniquely tailored to them.

Consumable

Short, easy-to-understand videos give users the know-how to create time for things that matter.

Trackable

Dashboards give full visibility into how users are changing as a result of what they've learned.

Solutions As Unique As You Are

No matter your organization's needs, BrainStorm has your back. Live sessions, a scalable platform, and supplementary materials offer you an unmatched, 360-degree approach to change that lasts.
